Hand-drawn sketch of a mobile app registration screen. The screen shows a status bar at the top with a signal icon, a battery icon, and the time 9:12. Below the status bar is a header area with a square placeholder on the left and a hamburger menu icon on the right. The main content area features the word "Register" in a large, bold font, followed by a thick, wavy underline. Below this is a registration form with four input fields labeled "Username", "Password", "Confirm", and "Email". A "Button" is located at the bottom of the form. In the bottom right corner of the screen is an upward-pointing arrow icon.

A hand-drawn sketch of a mobile application interface for a booking system. The interface is displayed on a smartphone screen with a status bar at the top showing signal strength, battery level, and the time 9:12. The app's layout includes a header with a square placeholder on the left and a hamburger menu icon on the right. Below the header, the word "Booking" is prominently displayed in a large, bold font, accompanied by a square icon with a left-pointing arrow. The main content area is enclosed in a rounded rectangle and features a section with a wavy black scribble and a "Price" label. Below this, there is a block of placeholder text represented by several lines of wavy black scribbles. Further down, there is a text input field labeled "User details: Name/Email", followed by a "Choose Date Time" label with a dropdown arrow, and a "Book Now" button. At the bottom right of the screen, there is an upward-pointing double arrow icon.
